The City of Regensburg

Regensburg - situated on the northernmost point of the river Danube

Welcome in Regensburg - a city rich in history and in the heart of Europe

Regensburg offers more than 2000 years of live history. There are so many interesting events, museums, galleries, boat rides, art & culture to be explored, which will be an unforgettable experience for our visitors.

Indulge in gourmet restaurants, beer gardens and trendy bars and feel the vibrant, urban life in a uniquely preserved medieval city center.

Picturesque little alleys open up into courts and yards with patrician palaces, great Roman buildings and edifices from the classicism. The stone bridge, a former architectural wonder of the world, has been arching over the river Danube for more than 850 years and St. Peter, the gothic cathedral, is admired by all visitors.

You are so very welcome to enjoy Regensburg and to visit our ancient city, young at heart, a cosmopolitan medieval town.
